

Air 1 is the best radio station ever. My friends and I listen to it everyday. Please don't take it off the air. It means a lot to us. If it was taken off, we wouldn't have any good rock Christian stations other than Spirit FM, which i don't like much. Air 1 is provided for the public because it is good music that helps us try to stay as good as possible. If taken off, my friends might start to lose what they now have, which would not be good. Please don't switch to the LPFM stations!!!!
